Contact surfaces 02

Transit YA

Trolley

A correct flow of materials, whether semi-finished or finished products, or parts in the assembly phase, plays an important role in rationalizing and optimizing the production cycle. The Tekna Logistics line offers companies a concrete solution to all storage, handling and assembly problems. Transit YA is a trolley for handling and storing door and window frames.

Transit YA

Trolley

01

Swivelling castors

The trolley has 4 swivelling castors with brakes which ensure great mobility and easy handling. The brakes enable it to be locked in position in the various work areas.

02

Contact surfaces

All contact surfaces are coated with soft anti-slip PVC which prevents damage to them when the profiles are put in position.

TECHNICAL CHARACTERISTICS

Dimensions L x D x H (mm)	1.540 x 1.050 x 1.305
Depth of compartment (mm)	930
Width of compartment D (mm)	100
Vertical support, height (mm)	1.045
Compartments	10
Soft anti-slip PVC contact surfaces	•
Broad supporting base	•
Push handle	•
4 swivelling castors, 2 with brake	ø 125 mm
Load capacity (kg)	500
